

Tshilidzi Faith Madzhara

Full Stack Developer | Software Developer Intern | Frontend & Backend Development

Johannesburg, Gauteng, South Africa, 2000 | 067 721 8406 | liedziey@icloud.com | LinkedIn: www.linkedin.com/in/faith | GitHub: github.com/MadzharatF | AI Portfolio: tshilidzi-madzharatf-portfolio-bxwq.vercel.app

PROFESSIONAL SUMMARY

Software Developer Intern and full-stack developer with a Diploma in Information Technology and hands-on experience building and maintaining web applications across frontend, backend, databases, APIs and cloud services. Currently contributing to the TPT App Development project at Centrax Digital using Next.js, React, TypeScript, Firebase and REST APIs. Experienced with Zoho CRM, Zoho Projects, Zoho Creator, workflow automation, blueprint testing and configuration, debugging, testing, Git/GitHub workflows, technical documentation and user support.

TECHNICAL SKILLS

Frontend: Next.js 16, React 19, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS v4, Radix UI, Vite

Backend & APIs: Node.js, Express.js, REST APIs, API integration, JWT authentication, bcryptjs

Databases & Cloud: Firebase Authentication, Firestore, Firebase Storage, PostgreSQL, SQLite, MongoDB, IndexedDB

Zoho & Automation: Zoho CRM, Zoho Projects, Zoho Creator, workflow configuration and testing, blueprint creation and testing, Zoho Flow, business-process automation

Testing & Debugging: TypeScript checks, unit testing, linting, Firestore rules testing, workflow testing, logs, reproducible debugging, Postman

Development Tools: Git, GitHub, pull requests, code reviews, GitHub Actions, Docker, Docker Compose, npm, VS Code, Vercel, Render

Ways of Working: Technical documentation, change tracking, Agile collaboration, project coordination, AI-assisted development

WORK EXPERIENCE

Software Developer Intern | Centrax Digital | May 2026 - Present

- Develop and maintain frontend features for the TPT App Development project using Next.js, React and TypeScript.
- Build responsive, reusable interfaces and integrate frontend functionality with backend services and REST APIs.
- Work with Firebase Authentication, Firestore, Storage, security rules and permission-aware application flows.
- Work with Zoho CRM, Zoho Projects and Zoho Creator to support business processes, application configuration and project workflows.
- Configure, test and validate Zoho workflows, checking automation logic and expected system behaviour.
- Create and test Zoho Blueprints to define process stages, transitions and workflow requirements.
- Test Zoho configurations and business processes, identify issues and verify that workflows and Blueprints operate as intended.
- Debug frontend, backend and integration issues using tests, logs, reproducible steps and validation checks.
- Write and maintain technical documentation, implementation notes, project updates and development handover information.
- Use Git and GitHub for branching, pull requests, code reviews and collaborative development workflows.
- Contribute to planning, task tracking, risk identification and communication of blockers and dependencies.

Full Stack Developer Intern | CAPACITI - Braamfontein | Nov 2025 - Present

- Develop web applications using React, JavaScript, HTML5 and CSS3 with a focus on usable frontend experiences.
- Build and integrate frontend interfaces with Node.js backends, REST APIs and application databases.
- Debug frontend, backend and integration issues and improve application reliability through testing and verification.
- Develop practical projects including a banking system, salon booking system, AI portfolio and chatbot.

Technical Support Agent | Startek - Sunninghill, Sandton | Dec 2024 - Jul 2025

- Troubleshoot technical and network issues and configured routers to resolve user problems.
- Provided first-line user support and communicated technical information clearly to non-technical users.
- Escalated issues where appropriate and developed strong evidence-based troubleshooting and customer support skills.

SELECTED PROJECTS & RELEVANT EXPERIENCE

- **TPT App Development:** Next.js, React, TypeScript, Firebase, Firestore, REST APIs, authentication, dashboards, activity history, testing and documentation.

- **Zoho & Automation:** Hands-on experience with Zoho CRM, Zoho Projects and Zoho Creator, including workflow configuration and testing, Blueprint creation and testing, and business-process automation.
- **NOVA-Bank:** Banking application using React/Redux, JavaScript and CSS with interactive user flows.
- **Salon System:** Full-stack booking application focused on responsive UI, backend integration and usability.
- **AI Portfolio & Chatbot:** AI-focused applications demonstrating API integration and AI-assisted user experiences.

EDUCATION & CERTIFICATIONS

- **Diploma in Information Technology** - Richfield Graduate Institute of Technology | Feb 2022 - Dec 2024
- **Certificate in Full Stack Development & AI** - CAPACITI (Coursera) | Nov 2025 - May 2026
- **Certificate in Network Plus (N+)** - Richfield Graduate Institute of Technology
- **Certificate in Service Technician (A+)** - Richfield Graduate Institute of Technology

KEY STRENGTHS

Full-stack development • Frontend development • Backend integration • REST APIs • Zoho CRM • Zoho Projects • Zoho Creator • Workflow automation • Blueprint creation & testing • Debugging & testing • Git/GitHub • Technical documentation • User support • Problem-solving • Agile collaboration • Continuous learning
